

## LeFinace:

### "WHERE ARCHITECTURAL NFT's MEET VIRTUAL WORLD"

We are stepping in new virtual era of virtual world. Virtual World will bring the whole community together, No Matter where you are but you will be along with your loved ones, family, friends, colleagues, students, employees, clients and more. With every tick of clock we are getting closer to this world, which will bring ease in your life.

We are being the part of this revolutionary world, and evolution indulging ourselves with artistic architectural infrastructure in virtual world. If you are unaware of, how the virtual world will come into existence, collective NFTs (Non Fungible Tokens) will make virtual world, here everything you can think of will be NFT and once the Meta is here all NFTs will be connected with the help of API's.

Dozens of companies like, Sandbox, decentraland etc are selling real estate to the open public, where people took part in auction and purchased the desired piece of land. They will either use this place for their own, build games, or to resell.

In all situations the land will be built by the owners, our company and token will bring the top best architects together from all around the world to build the most artistic infrastructure. i.e.

Buildings,  
Class Rooms,  
Rooms,  
Living rooms,  
Meeting rooms,  
Schools,  
College,  
Universities,  
Business buildings,  
Coffee shop,  
Grocery store,  
Market,  
Art Gallery,  
Museum,

Auditoriums,  
Wonder Lands,  
Indoor outdoor gaming clubs,  
Wardrobe rooms,  
Car Garages,  
Hotels,  
Villas,  
Monuments,  
Racing tracks,  
Gaming cities,  
& much more.

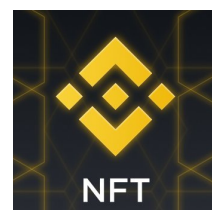

Our mission is to build infrastructure in “Meta” for our customers and Meta users all around the world. The architecture we will build, will be one and unique around the corner. We will build special customized architecture for our clients on their call. We will also put company made architecture for auction. Our unique ideas will bring public at large and investors together to bid on our architectural NFT. Every week auction will be held for every new 3D-360 degree Model architectural NFT.

It's not over, if you have missed the 3D-360 NFT model to buy, 2D or 3D sketch of every model will also be available as NFT once the 360 degree model is sold.

Auctions for our Architectural NFT's will be held in collaborating with following companies/Apps:

1. OPENSEA
2. RARIBLE
3. FOUNDATION
4. JGNNFT
5. BINANCE NFT

## **LeFinace Tokens (LFT):**

**TOKEN TRACKER:** LeFinace (LFT)  
**MAX SUPPLY:** 5,000,000,000  
**TOTAL SUPPLY:** 5,000,000,000  
**ISSUE DATE:** 20-10-2021  
**ICO PRICE:** 0.01\$  
**FOR BURNING:** 1,000,000,000  
**BLOCKCHAIN:** Binance Smart Chain  
**WALLETS:** METAMASK, TRUST WALLET  
**FIRST EXCHANGE:** PANCAKE SWAP

### **DISTRIBUTION:**

The distribution of LFT coins will be held in different phases.

**Firstly**, coins will be available for public to be bought through ICO. For which you can visit our website. [www.lefinace.com](http://www.lefinace.com)

**Secondly**, we are collaborating with trading companies i.e. PRISM GOLD ONE, where the coins will be gifted to the company users in either way.

**Thirdly**, we will allow staking with 104% APY for 6 Months.

**Fourthly**, every purchaser/buyer of NFT will get some quantity of LFT tokens for holding our NFT.

### **USABILITY:**

Our developers are working on unique idea of building messaging application, where users will be able to use our coin and other crypto coins for trading purposes. It will also let the user to send NFT's through messaging application either for selling purpose or just for sharing purpose. We are trying to make payments possible through messaging app without jumping to any other payment app and keep record/ledger of transactions with security. Those chats, usernames and messages will be minted in NFT and will be capable of being sold as NFT. We are looking forward to make our coin a METAVERSE currency.

### **CONCLUSION:**

We are the first to offer artistic Architectural NFT's in the virtual world of the next era. LeFinace tokens will play a vital role in development of infrastructure (Architecture) for the virtual world.

LETS STEP INTO VIRTUAL WORLD
