

WHITE PAPER

LE FINACE COIN

"PAYMENTS SIMPLIFIED"

INTRODUCTION

Since the bitcoin came into existence, It has always been highly volatile and unpredictable .Though, adoption of such volatile coins as primary currency in hard to carry. The market place of cryptocurrencies is increasing day by day but usability still matters.

We have planned out to jump into the ring with punch of usability, encryption and security for our users. The users have always been a prey of manipulations by big whales and institutions. We regret such pumps that couldn't be managed by the normal public with minor investment and high dreams. In long term and minds, the idea of simplified usability is revolving but for now it's a bubble over water surface.

Since, Bitcoin is now becoming legally primary currency of different states but till now they are far apart from ideas to implement. We are now looking for making the payments and usability simplified one click away. People will be able to use barter against goods and services through an encrypted messaging app. This will enable them a safe and secured environment to barter and trade the goods and services through the applications created on the coin.

Due to high scalability and determination of Binance Smart Chain, we chose to depend on this chain and make it base. It becomes easy for a coin to fly, when it takes off on a smooth runway like BSC. In coming era BSC will be most important and dependable chain across the crypto globe.

PRIORITIZATION

in this frustrated and same time competitive market, mind boggling ideas will help the community to derive best ways out in this situation. Where crypto market is gaining public attention, prioritization should be settled in first hand. So. here we are to act like a professionals and set priorities.

CHAIN SELECTION:

Before implementing the idea and coming in this competitive market, we had to chose the school of thought . So with no other than Binance Smart Chain we decided to go with and depend as smartly as we can.

MINING:

We chose to mine 100% of supply of coins to avoid the delay and dependability on miners, where mining and place of mining is becoming a hard task. Where can we stand when bitcoin miners in China were given no chance to mine. This will help the company to make this coin more user friendly.

TOTAL SUPPLY:

Total supply of LFT coin is 5 Billion, this number of coins is for a reason, and the reason is to manage the price more reliable and constant up to some mark. The unpredictable fluctuation might not be a good idea for making the coin user friendly and keep revolving among people.

MESSAGING APP:

Company is eagerly waiting to develop a messaging app cum coin market place, where people will be able to chat but come more likely to trade for the goods and services. Here we will provide a space, where trader will meet trader and trader will meet with clients and vice versa.

A GAMING APP:

In this gaming tech world, crypto is a world for mature users but we will bring the knowledge of crypto and make kids of all age closer to the crypto world with a gaming app. It might not be easy to discuss the idea here to keep a secret but soon you will find it in your app stores. The idea will be to

entertain the kids and adults but with some physical activity. That will remind the adults their childhood and let those days again strike their mind.

DISTRIBUTION:

Dozen of applications, specially bot services provider companies shall be sponsored by the LE FINANCE COIN, Moreover against the sponsorship the coin will be available for the bot to place trade on our coin with different pairs. Through this the coin shall be kept in thousands of wallets. Airdrops shall be a helping hand to distribute the coins. Physical and digital QR codes shall be pasted and posted at different places to bring a charm among people.

BURNING:

There will be two biannual burnings of 200 Million coins in first year as per burning schedule. After that the company will burn 800 Million Coins out of the total supply randomly. Burning of coins is super trend and tends the coin to spike the price in early position. It helps those who chose to keep coins locked in their cold storage wallets. While, still company is more keen to keep more of the supply so stay in hands of maximum users. But keeping in view, Trend is Friend, here is schedule of burning and it will happen as promised below.

FOR RANDOM BURNING YOU WILL BE NOTIFIED THROUGH OUR NEWSLETTER SUBSCRIPTION AND WEBSITE THIRTY DAYS PRIOR TO DATE OF BURNING.

BURNING OF LFT

BURNING NO.	NO. OF COINS	DATE OF BURNING
1	100 MILLION	01-01-2022
2	100 MILLION	01-07-2022
3	100 MILLION	RANDOM
4	100 MILLION	RANDOM
5	100 MILLION	RANDOM
6	100 MILLION	RANDOM
7	100 MILLION	RANDOM
8	100 MILLION	RANDOM
9	100 MILLION	RANDOM
10	100 MILLION	RANDOM

STAKING:

Holders will be able to stake the coins securely and gain Annual PER YIELD on holding the coin for a term as per terms and conditions settled. Firstly, staking will start from 1st of November, 2021 for six months.

ENLISTING WITH EXCHANGES:

Within six months of staking, Reaching 4th month, coin will be listed in the first exchange and users/holders shall be able to buy and sell the coin for some purpose. We recommend you to hold the coin and you will not regret the holding. We are coming with good plans.
